Experience

UX/UI Designer @upGrad

25th March 2019 - Present • Mumbai, India

- Gather and evaluate user requirements, in collaboration with product managers and engineers
- Facilitate the company's product vision by researching, conceiving, sketching, prototyping, and user-testing experiences for digital products.
- Translate concepts into user flows, wireframes, mockups and prototypes that lead to intuitive user experiences
- Design and deliver wireframes, user stories, user journeys, and mockups optimized for a wide range of devices and interfaces
- Make strategic design and user-experience decisions related to core, and new functions and features

Product Designer @ M.S.D solutions

Sep 2017 - Jan 2019 • Mumbai, India

- Setting design requirements based on briefs from internal teams and external partners
- Analyze Product-Market Fit and consumer preferences
- Perform research on product technologies and structures to implement into design concepts
- Perform research on materials and techniques to provide sustainable solutions and reduce the carbon footprint
- Coordinate with various cross-functional teams to ensure accurate communication and efficiency in the design phase

Product Designer @ Santosh Noronha, Chemical Engg Dept., IIT Bombay

Jul 2016 - Aug 2017 • Mumbai, India

- Led the product design of smart healthcare devices as part of an early-stage startup.
- Conduct research into cost, properties of production materials and methods of production
- Develop manual and computer-assisted design (CAD) concepts, sketches and prototypes for approval
